# INTRODUCTION

---

This Statement of Investment Principles (“the Statement”) has been prepared by the Trustees of the Genting UK Retirement Benefit Scheme, (“the Scheme”) in accordance with Section 35 of the Pensions Act 1995, as amended, and its attendant Regulations.

The Statement outlines the principles governing the investment policy of the Scheme and the activities undertaken by the Trustees to ensure the effective implementation of these principles. It replaces the Statement dated September 2019.

In preparing the Statement, the Trustees have:

- Obtained and considered written advice from a suitably qualified individual, employed by their investment consultants, Mercer, whom they believe to have a degree of knowledge and experience that is appropriate for the management of their investments; and
- Consulted with the Sponsoring Employer, although they affirm that no aspect of their strategy is restricted by any requirement to obtain the consent of the Sponsoring Employer.

The advice and the consultation process considered the suitability of the Trustees’ investment policy for the Scheme.

The Trustees will review the Statement formally at least every three years to coincide with the triennial Actuarial Valuation or other actuarial advice relating to the statutory funding requirements. Furthermore, the Trustees will review the Statement without delay after any significant change in investment policy. Any changes made to the Statement will be based on written advice from a suitably qualified individual and will follow consultation with the Sponsoring Employer.

# INVESTMENT OBJECTIVES

---

The Trustees' primary investment objective for the Scheme is to achieve an overall rate of return that is sufficient to ensure that assets are available to meet all liabilities as and when they fall due.

In doing so, the Trustees also aim to maximise returns at an acceptable level of risk taking into consideration the circumstances of the Scheme.

The Trustees have also received confirmation from the Scheme Actuary during the process of revising the investment strategy that their investment objectives and the resultant investment strategy are consistent with the actuarial valuation methodology and assumptions used in the Statutory Funding Objective.

# INVESTMENT RESPONSIBILITIES

---

## 3.1 TRUSTEES' DUTIES AND RESPONSIBILITIES

The Trustees are responsible for setting the investment objectives and determining the strategy to achieve the objectives.

The duties and responsibilities of the Trustees include, but are not limited to, the following tasks and activities:

- The regular approval of the content of the Statement
- The appointment and review of the Investment Manager and investment adviser
- The assessment and review of the performance of each investment manager
- The setting and review of the investment parameters within which the Investment Manager can operate
- The assessment of the risks assumed by the Scheme at a total scheme level as well as on a manager by manager basis
- The approval and review of the asset allocation benchmark for the Scheme
- The compliance of the investment arrangements with the principles set out in the Statement

## 3.2 INVESTMENT ADVISER'S DUTIES AND RESPONSIBILITIES

The Trustees have appointed Mercer as the investment adviser to the Scheme. Mercer provides advice as and when the Trustees require it, as well as raising any investment-related issues, of which it believes the Trustees should be aware. Matters on which Mercer expects to provide advice or assistance to the Trustees include the following:

- Setting of investment objectives
- Determining investment strategy and asset allocation
- Determining an appropriate investment structure
- Liaising with JLT Investment Management (JLT IM) to determine funds and investment managers that are suitable to meet the Trustees' objectives
- Monitoring the underlying investment managers to ensure their continuing appropriateness to the mandates given
- Setting cashflow management (investment and withdrawal) policies (see Appendix 2)

The Trustees may seek advice from Mercer with regard to both strategic and tactical investment decisions (see Section 4 - Investment Strategy); however, they recognise that they retain responsibility for all such decisions, including those that concern investments and disinvestments relating to cash flows (see Appendix 2). Mercer may be proactive in advising the Trustees regarding tactical investment decisions; however, there is no responsibility placed on Mercer to be proactive in all circumstances.

Mercer monitors the performance of the Scheme's investment managers against their benchmarks.

Section 3.3 below describes the responsibilities of JLT IM as Investment Manager to the Scheme.

Mercer makes a fund based charge for the services specified within its investment agreement with the Trustees.

Any additional services provided by Mercer will be remunerated primarily on a time-cost basis.

Mercer does not receive commission or any other payments in respect of the Scheme that might affect the impartiality of its advice, and as noted below, any discounts negotiated by JLT IM with the underlying managers are passed on in full to the Scheme.

---

The Trustees are satisfied that this is the most appropriate adviser remuneration structure for the Scheme.

Mercer is authorised and regulated by the Financial Conduct Authority (“FCA”).

### 3.3 ARRANGEMENT WITH INVESTMENT MANAGERS

The Trustees, are a long term investor and does not look to change the investment arrangements on a frequent basis.

After considering appropriate investment advice, the Trustees have appointed JLT IM as Investment Manager to the Scheme. JLT IM was first appointed in May 2015.

The key duty of JLT IM is to select underlying investment managers suitable to each mandate within the Trustees’ agreed asset allocation.

Investment managers are appointed by JLT IM based on their capabilities and therefore their perceived likelihood of achieving the expected return and risk characteristics required for the asset class being selected.

JLT IM will only invest in pooled investment vehicles. The Trustees therefore accepts that they cannot specify the risk profile and return targets of the manager, but pooled funds are chosen with appropriate characteristics to align with the overall investment strategy.

If a manager is significantly downgraded by Mercer, JLT IM will replace that manager with a suitable alternative.

JLT IM is also responsible for appointing a suitable Platform provider, which will provide the infrastructure to support the Scheme’s investments and host the underlying investment managers’ funds. The current Platform provider is Mobius Life Limited, whose appointment foregoes the need for a Custodian. Mobius Life Limited is authorised by the Prudential Regulation Authority (“PRA”) and regulated by the FCA and the PRA.

The underlying investment managers are responsible for all decisions concerning the selection and de-selection of the individual securities within the portfolios they manage.

In the case of multi-asset mandates, the underlying investment managers are responsible for all decisions concerning the allocation to individual asset classes and changes in the allocations to individual asset classes.

JLT IM is authorised and regulated by the FCA. All of the investment managers that will be appointed by JLT IM will be authorised and regulated by the PRA, the FCA or both.

Underlying investment managers are remunerated by ad valorem charges based on the value of the assets that they manage on behalf of the Scheme. Where possible, discounts have been negotiated by JLT IM with most underlying managers on their standard charges and the Scheme benefits directly from these discounts.

Neither JLT IM, nor any of the underlying managers in which the Scheme’s assets are invested have performance based fees which could encourage the manager to make short term investment decisions to hit their profit targets.

The Trustees therefore consider that the method of remunerating fund managers is consistent with incentivising them to make decisions based on assessments of medium to long-term financial and non-financial performance of an issuer of debt or equity. By encouraging a medium to long-term view, it will in turn encourage the investment managers to engage with issuers of debt or equity in order to improve their performance in the medium to long-term.

The Trustees accept that they cannot influence the charging structure of the pooled funds in which the Scheme is invested, but are satisfied that the ad-valorem charges for the different underlying funds are clear and are consistent with each fund’s stated characteristics. The Trustees are therefore satisfied that this is the most appropriate basis for remunerating the underlying investment managers and is consistent with the Trustees policies as set out in this SIP.

JLT IM makes a fund based charge for the services it provides. This charge is specified in the contractual agreement between the Trustees and JLT IM.

JLT IM does not receive commission or any other payments in respect of the Scheme that might affect the impartiality of its actions and any discounts negotiated by JLT IM with the underlying managers are passed on in full to the Scheme. The Trustees believe that this is the most appropriate basis for remunerating managers.

The Trustees believe that this is the most appropriate basis for remunerating managers.

### 3.4 SUMMARY OF RESPONSIBILITIES

A summary of the responsibilities of all relevant parties, including the Scheme Actuary and the Scheme administrators, so far as they relate to the Scheme's investments, is set out at Appendix 4.

# INVESTMENT STRATEGY

---

## 4.1 SETTING INVESTMENT STRATEGY

The Trustees have determined their investment strategy after considering the Scheme's liability profile and requirements of the Statutory Funding Objective, their own appetite for risk, the views of the Sponsoring Employer on investment strategy, the Sponsoring Employer's appetite for risk and the strength of the Sponsoring Employer's covenant. The Trustees have also received written advice from their Investment Adviser.

Taking all these factors into consideration, the Trustees have determined that the investment strategy as set out in Appendix 1 is currently suitable for the Scheme.

In making this decision, the Trustees have been satisfied that this is consistent with their investment objectives and is supported by both the Sponsoring Employer and the Sponsoring Employer's covenant.

In respect of the investment of contributions and any disinvestments to meet member benefit payments, the Trustees have decided on a structured approach to re-balance the assets in accordance with their overall strategy. This approach is set out in Appendix 2.

## 4.2 INVESTMENT DECISIONS

The Trustees distinguish between three types of investment decision: strategic, tactical and stock-level.

### **Strategic Investment Decisions**

These decisions are long-term in nature and are driven by an understanding of the objectives, needs and liabilities of the Scheme.

The Trustees take all such decisions themselves. They do so after receiving written advice from their investment adviser and consulting with the Sponsoring Employer. Examples of such decisions and of tasks relating to the implementation of these decisions include the following:

- Setting investment objectives
- Determining the split between the growth and the matching portfolios
- Determining the allocation to asset classes within the growth and matching portfolios
- Determining the Scheme benchmark
- Reviewing the investment objectives and strategic asset allocation

### **Tactical Investment Decisions**

These decisions are short-term and based on expectations of near-term market movements. Such decisions may involve deviating temporarily from the strategic asset allocation and may require the timing of entry into, or exit from, an investment market or asset class.

These decisions are the responsibility of the Trustees. However, where such decisions are made within a pooled fund, they are the responsibility of the investment manager of the fund.

### **Stock Selection Decisions**

All such decisions are the responsibility of the investment managers of the pooled funds in which the Scheme is invested.

## 4.3 TYPES OF INVESTMENTS TO BE HELD

The Trustees are permitted to invest across a wide range of asset classes.

All the funds in which the Scheme invests are pooled and unitised. The use of derivatives is as permitted by the guidelines that apply to the pooled funds.

Information relating to the appointment of investment managers can be found in Appendix 3.

The Trustees recognise the benefits of diversification across asset classes, as well as within them, in reducing the risk that results from investing in any one particular market. The Trustees have therefore invested in pooled Diversified Growth Funds (“DGFs”), which are actively managed multi-asset funds and invest across a diversified range of assets.

Similarly, the Trustees have invested in a pooled Absolute Return Bond (“ARB”) / Multi Asset Credit Fund (“MAC”) Fund whose manager selects and manages allocations across a diversified spectrum of bond assets.

The Trustees note that it would not be practical (or appropriate) for them to commit the resources necessary to make these decisions across a wide range of asset classes themselves.

The Trustees note that the actuarial value of the Scheme's future benefits payments to members is sensitive to changes in long term interest rates and long term inflation expectations. The Trustees have therefore decided to invest in Credit Linked and Equity Linked Liability Driven Investment (“LDI”) funds which aim to respond in a similar way to changes in these factors and reduce the volatility of the Scheme's funding position. This is referred to as hedging. These funds also provide exposure to credit and equity markets respectively.

## 4.4 FINANCIALLY MATERIAL CONSIDERATIONS

The Trustees consider many risks which they anticipate could impact the financial performance of the Scheme's investments over its expected lifetime. Such risks are set out in the next section of this statement.

The Trustees recognise that environmental, social and corporate governance (“ESG”) factors, including climate change, can influence the investment risk and return outcomes of the Scheme's portfolio and it is therefore in members' and the Scheme's best interests that these factors are taken into account within the investment process.

The Trustees further recognise that investing with a manager which approaches investments in a responsible way and takes account of ESG related risks may lead to better risk adjusted performance results as omitting these risks in the investment analysis could skew the results and underestimate the level of overall risk being taken. Therefore, other factors being equal, the Trustees would seek to invest in funds which incorporate ESG principles.

In setting their investment strategy, the Trustees have prioritised funds which provide leveraged protection against movements in the Scheme's liability value and also funds which provide actively managed diversification across a wide range of investment markets and consider the financially significant benefits of these factors to be most important.

The Trustees note that ESG considerations are not paramount to the first level decision making process within the funds which provide either actively managed diversification or leveraged liability protection. However, in the actively managed Diversified Growth Funds in which the Scheme invests, whilst managers typically do not put ESG considerations at the heart of the asset allocation decision, they will embed ESG considerations into the management of the underlying asset classes where it is appropriate to do so.

The Trustees receive ESG scores provided by the Investment Consultant in relation to the funds in which the Scheme is invested and will monitor how these develop over time.

The Trustees have built an ongoing review of ESG considerations into their annual business plan to make sure that their policy evolves in line with emerging trends and developments.

The Trustees are therefore satisfied that ESG factors are appropriately reflected in the overall investment approach.

## 4.5 NON - FINANCIAL MATTERS

The Trustees have determined that the financial interests of the Scheme members are their first priority when choosing investments.

They have decided not to consider non-financial matters, such as ethical views, or to take members' preferences into account when setting the investment strategy for the Scheme.

## 4.6 STEWARDSHIP

The Scheme is invested solely in pooled investment funds. The Trustees' policy is to delegate responsibility for engaging with, monitoring investee companies and exercising voting rights to the pooled fund investment managers and expects the investment managers to use their discretion to act in the long term financial interests of investors.

If the Trustees are specifically invited to vote on a matter relating to corporate policy, they would exercise their right in accordance with what they believe to be the best interests of the majority of the Scheme's membership.

# RISK

---

Under the Pensions Act 2004, the Trustees are required to state their policy regarding the ways in which risks are to be measured and managed. These are set out below.

## **Solvency Risk and Mismatching Risk**

- These are measured through a qualitative and quantitative assessment of the expected development of the assets relative to the liabilities.
- They are managed by setting a Scheme-specific strategic asset allocation with an appropriate level of risk.

## **Manager Risk**

- This is assessed as the expected deviation of the prospective risk and return, as set out in the managers' objectives, relative to the investment policy.
- It is measured by monitoring the actual deviation of returns relative to the objective and factors supporting the underlying managers' investment process, and by appointing JLT IM to monitor and replace any managers where concerns exist over their continued ability to deliver the investment mandate.
- It is also managed by diversifying the investments across more than one underlying manager.

## **Liquidity Risk**

- This is monitored according to the level of cash flows required by the Scheme over a specified period.
- It is managed by holding an appropriate amount of readily realisable investments. The Scheme's assets are invested in pooled funds which are readily realisable.

## **Political Risk**

- This is measured by the level of concentration in any one market leading to the risk of adverse influence on investment values arising from political intervention.
- It is managed by regular reviews of the investments and through investing in funds which give a wide degree of diversification.

## **Corporate Governance Risk**

- This is assessed by reviewing the Scheme's investment managers' policies regarding corporate governance.
- It is managed by delegating the exercise of voting rights to the managers, who exercise this right in accordance with their published corporate governance policies. Summaries of these policies are available to the Trustees on request and take into account the financial interests of the shareholders, which should ultimately be to the Scheme's advantage.

## **Sponsor Risk**

- This is assessed as the level of ability and degree of willingness of the sponsor to support the continuation of the Scheme and to make good any current or future deficit.
- It is managed by assessing the interaction between the Scheme and the sponsor's business, as measured by a number of factors, including the creditworthiness of the sponsor and the size of the pension liability relative to the sponsor. The Trustees manage this by regular updates from senior management of the sponsor.

## **Legislative Risk**

- This is the risk that legislative changes will require action from the Trustees so as to comply with any such changes in legislation.

- The Trustees acknowledge that this risk is unavoidable but will seek to address any required changes so as to comply with changes in legislation.

## **Credit Risk**

- This is the risk that is associated with the inability of a borrower to repay, in full or part the monies which it owes to a creditor.
- The Scheme invests in pooled investment vehicles and is therefore directly exposed to credit risk in relation to the instruments it holds in the pooled investment vehicles and is indirectly exposed to credit risks arising on the financial instruments held by the pooled investment vehicles.
- The Scheme's holdings in pooled investment vehicles are unrated. Direct credit risk arising from pooled investment vehicles is mitigated by the underlying assets of the pooled arrangements being ring-fenced from the pooled manager, the regulatory environments in which the pooled managers operate and diversification of investments amongst a number of pooled arrangements.
- Indirect credit risk arises in relation to underlying bond investments held in the pooled funds. This risk is mitigated by investing in funds with diversified portfolios.
- The Trustees have appointed JLT IM as Investment Manager and the assets are invested via the Mobius Life Investment Platform. Mercer, JLT IM and Mobius carry out their own due diligence checks before a new pooled fund is invested in, and on an ongoing basis monitor any changes to the regulatory and operating environments of the underlying pooled investment managers.

## **Market Risk**

- This is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of the following three types of risk:

### *Currency Risk*

- This is the risk that occurs when the price of one currency moves relative to another (reference) currency. In the context of a UK pension scheme, it may be invested in overseas stocks or assets, which are either directly or indirectly linked to a currency other than Sterling. There is a risk that the price of that overseas currency will move in such a way that devalues that currency relative to Sterling, thus negatively impacting the overall investment return.
- The DGFs and ARB/ MAC Funds have a Sterling benchmark and this is their neutral position. Within them, the management of the currency risk related to overseas investments is delegated to the underlying investment managers, but by investing in a diversified investment portfolio, the impact of currency risk is mitigated.
- The LDI Funds are UK based and therefore not exposed to currency risk.

### *Interest Rate Risk*

- This is the risk that an investment's value will change due to a change in the level of interest rates. This affects debt instruments more directly than growth instruments.
- The Trustees recognise that the Scheme's liabilities are exposed to a significant level of interest rate risk movement and for this reason it is desirable for the Scheme's assets to be exposed to a similar level of interest rate risk and the Trustees have invested in LDI Funds to manage this risk.

### *Other Price Risk*

- This is the risk that principally arises in relation to the return seeking assets, for which the Scheme invests in DGFs in order to achieve a diversified exposure to different investment markets and manage this risk.

## **ESG Risk**

- This is the risk that Environmental, Social or Corporate Governance concerns, including climate change, have a financially material impact on the return of the Scheme's assets.
- The Trustees manage this risk by investing in well-respected investment managers where ESG principles are an established part of the investment decision making process and by reviewing ESG considerations on an ongoing basis, including the investment adviser's scoring of the Scheme's managers.

# MONITORING OF INVESTMENT ADVISER AND MANAGER

---

## 6.1 INVESTMENT ADVISER

The Trustees assess and review the performance of their adviser in a qualitative way. In doing so, the Trustees will consider the objectives it sets for its investment adviser in the document entitled “Strategic Objectives for Investment Consultancy Services” which was signed and formally adopted by the Trustees in December 2019.

## 6.2 INVESTMENT MANAGERS

The Trustees receive quarterly monitoring reports on the performance of the underlying investment managers from Mercer, which present performance information over 3 months, 1 year and 3 years. The reports show the absolute performance and performance against the manager’s stated target benchmark performance (over the relevant time period) on a net of fees basis. They also provide returns on market indices so that these can be used to help inform the assessment of the underlying managers’ performance.

The reporting also reviews the performance of the Scheme’s assets in aggregate against the Scheme’s strategic benchmark.

JLT IM, as Investment Manager has the role of replacing the underlying investment managers where appropriate. It takes a long-term view when assessing whether to replace the underlying investment managers and such decisions would not be made based solely on short-term performance concerns. Instead, changes would be driven by a significant downgrade of the investment manager by Mercer. This in turn would be due to a significant reduction in Mercer’s confidence that the investment manager will be able to perform in line with its fund’s mandate over the long term.

Changes will also be made to the underlying managers if there is a strategic change to the overall strategy that no longer requires exposure to that asset class or manager.

### 6.1. PORTFOLIO TURNOVER COSTS

The Trustees do not currently monitor portfolio turnover costs for the funds in which the Scheme is invested, although note that the performance monitoring reports which they receive are net of all charges, including such costs. Portfolio turnover costs mean the costs incurred as a result of the buying, selling, lending or borrowing of investments.

The Trustees are also aware of the requirement to define and monitor targeted portfolio turnover and turnover range.

Given that the Scheme invests in a range of pooled funds, many of which invest across a wide range of asset classes, the Trustees do not have an overall portfolio turnover target for the Scheme.

The Trustees are working with Mercer to determine the most appropriate way to obtain and monitor the information required in relation to the pooled funds in which the Scheme is invested.

# ADDITIONAL VOLUNTARY CONTRIBUTIONS (“AVCS”)

---

The Scheme provided a facility for members to pay for Additional Voluntary Contributions (“AVCs”) to enhance their benefits at retirement. Members AVCs are invested with Clerical Medical and Equitable Life.

On 1 January 2020, following High Court approval and a policyholder vote, the business of Equitable Life was transferred to Utmost Life and Pensions. AVCs that were previously held in the Equitable Life With Profits Fund were transferred initially to the Utmost Secure Cash Fund.

Over the second half of 2020, the Utmost Secure Cash Fund holding is being closed down by Utmost. The Trustees decided, based on advice from Mercer, that members’ investments should be transitioned to the Utmost Money Market Fund, unless members chose to make an investment choice of their own. Members are able to select from any of the funds available through Utmost.

Because the Trustees, after receiving investment advice, chose to invest members’ former With Profits AVCs in the Utmost Secure Cash Fund and subsequently the Utmost Money Market Fund in the event that members do not make their own investment choice, these funds are classed as a ‘Default’ fund. The regulations therefore require that the Statement of Investment Principles details the Trustees approach to investing for these Additional Default Funds. This is set out in Appendix 4.

# BEST PRACTICE

---

The Trustees note that in March 2017, the Pensions Regulator released Investment Guidance for Defined Benefit Pension Schemes.

The Trustees receive investment advice which ensures that the principles contained within this guidance are applied to the Scheme as far as relevant to the Scheme's circumstances.

The Trustees also meet with their investment adviser on a regular basis, monitoring developments both in relation to the Scheme's circumstances and in relation to evolving guidance, and will revise the Scheme's investment approach if considered appropriate.

# COMPLIANCE

---

The Scheme's Statement of Principles is published on a publicly available web page and along with the annual report and accounts is available to members on request.

A copy of the Scheme's current Statement plus Appendices is also supplied to the Sponsoring Employer, the Scheme's auditors and the Scheme Actuary.

This Statement of Investment Principles, taken as a whole with the Appendices, supersedes all others and was approved by the Trustees.

**Approved by the Trustees on 3 September 2020**

# APPENDIX 1: ASSET ALLOCATION BENCHMARK

---

The agreed asset allocation and guidance range for the Scheme is set out below.

	Allocation (%)	Guideline Range (%)
<b>Growth Assets</b>	<b>60</b>	<b>+/-10</b>
Diversified Growth Funds (DGF)	60	+/-10
<b>Stabilising Assets</b>	<b>40</b>	<b>+/-10</b>
Liability Driven Investments (LDI) – Equity-Linked Nominal	16	+/-5
Liability Driven Investments (LDI) – Credit Linked Real	12.5	+/-5
Multi Asset Credit / Absolute Return Bonds (MAC/ARB)	11.5	+/-5

The Trustees will monitor this allocation and make changes if considered appropriate after receiving investment advice.

The policy for rebalancing and investment / disinvestment of cashflows is set out in Appendix 2.

Appendix 3 provides information about the selection of investment managers.

# APPENDIX 2: CASHFLOW AND REBALANCING POLICY

---

## Rebalancing Policy

The asset allocation will be monitored by the Investment Manager and a suitable procedure has been put in place for rebalancing.

Details of this procedure are specified in the Investment Management Agreement (IMA) with JLT IM.

Any change to the Central Allocation or guideline range will require a signed revision to the IMA.

## Cashflows Policy

The Trustees have put in place a suitable procedure for managing the Scheme's cashflows.

Details of this procedure are specified in the IMA with JLT IM.

## LDI Recapitalisation

The Trustees note that the LDI manager may require additional assets from time to time in order to support the operation of the LDI funds or may release assets from time to time. The Trustees have put in place a policy regarding this recapitalisation/release procedure.

This policy is set out in the IMA with JLT IM.

## Changes

The Trustees, will review the cashflow, rebalancing and LDI recapitalisation policy from time to time to ensure that they remain appropriate.

For avoidance of doubt, this Statement will not be revised purely in relation to a change in these policies

# APPENDIX 3: INVESTMENT MANAGER INFORMATION

---

The Scheme's assets are currently hosted on an investment platform provided by Mobius Life Limited, which facilitates investment into the underlying investment managers' funds.

The Scheme invests with JLT Investment Management (JLT IM), whose key responsibility is to choose suitable underlying investment managers to each of the mandates within the Trustees' agreed investment strategy as set out in Appendix 1.

If one of the underlying managers is significantly downgraded by Mercer's Manager Research Team, JLT IM will replace that fund with a suitable alternative as soon as is practicable.

For avoidance of doubt, this SIP will not be updated solely in response to a replacement of one of the underlying investment managers, although it will continue to be reviewed on a regular basis.

The Trustees monitor the underlying managers appointed from time to time, and are informed by JLT IM of any changes to those managers.

# APPENDIX 4: ADDITIONAL DEFAULT FUNDS

Making changes without member consent to AVCs results in the relevant funds being determined to be 'default' arrangements requiring additional disclosures. Following this principle, new default arrangements have been created which are as follows:

---

<b>Investment Funds</b>	<b>Date of Change</b>	<b>Reason</b>
Utmost Life Secure Cash Fund	January 2020	Fund used to receive the proceeds from the Equitable Life With Profits fund
Utmost Life Money Market Fund	July 2020	Fund to which the Utmost Secure Cash Fund holding was transitioned when Utmost phased it out.

---

The aims of the Additional Default Arrangements:

- In selecting the Additional Default Arrangements, the Trustee has explicitly considered the trade-off between risk and expected returns.
- Risk is not considered in isolation, but in conjunction with expected investment returns and outcomes for members.
- If members wish to, they can opt to move assets away from the Additional Default Arrangements and choose alternative investment funds at any time.
- Assets in the Additional Default Arrangements are invested in the best interests of members and beneficiaries, taking into account the objectives of the arrangements.
- Assets in the Additional Default Arrangements are invested in a manner which aims to ensure the security, quality, liquidity and appropriateness of a member's portfolio as a whole.
- Assets are invested in pooled funds which are daily dealing and readily realisable.

The Trustees key policies in respect of these Additional Defaults are summarised in the table overleaf:

Investment Funds	Fund Objective and Investments Held	Trustees Objective and Expected Risk and Return
Utmost Life Secure Cash Fund	<p>The main objectives of the Utmost Life Secure Cash Fund are capital preservation, liquidity and yield; in that order.</p> <p>The Trustees note that the Secure Cash Fund's value is unlikely to keep pace with inflation. Utmost has guaranteed that the unit price (net of fees) will not decrease, after accounting for charges. The Secure Cash Fund will cease to exist on 31 December 2020.</p> <p>The Secure Cash Fund will predominately be invested in UK Treasury Bills, short term gilts and overnight bank deposits. On occasions other high quality money market investments such as commercial paper or repurchase agreements may be purchased. The investment manager is responsible for determining the balance between these different kinds of investments.</p>	<p>The Trustees have determined that with the potential for elevated levels of volatility in investment markets due to Covid 19, the funds of members who received a significant uplift in compensation for the removal of the investment guarantees in the Equitable With Profits Fund should be invested in low risk money market funds where capital preservation is the key objective rather than maximising investment return or providing protection against inflation.</p> <p>The Trustees note that the Money Market Fund is unlikely to keep pace with inflation.</p>
Utmost Life Money Market Fund	<p>The main objective of the Utmost Life Money Market Fund is to preserve capital whilst aiming to provide a return in line with prevailing short term money market rates.</p> <p>The Money Market Fund will predominantly be invested in short term deposits. The investment manager is responsible for determining the balance between the different kinds of investments.</p>	<p>The Secure Cash Fund and the Money Market Fund have the lowest expected volatility of the funds available with Utmost.</p> <p>The Trustees will review this periodically.</p>

Trustees policies that are not explicitly mentioned in this Appendix are as outlined in the main SIP.

In line with regulatory requirements, the Trustees will continue to review their policies in respect of the Plan's additional default arrangements on a regular basis, and no less frequently than with each three yearly review of the SIP.

# APPENDIX 5: RESPONSIBILITIES OF PARTIES

---

## TRUSTEES

The Trustees' responsibilities include the following:

- Reviewing at least triennially, and more frequently if necessary, the content of this Statement in consultation with the Investment Adviser and modifying it if deemed appropriate
- Reviewing the investment strategy following the results of each actuarial review, in consultation with the Investment Adviser and Scheme Actuary
- Appointing the Investment Manager(s), and custodian (if required)
- Assessing the quality of the performance and processes of the Investment Manager(s), by means of regular reviews of investment returns and other relevant information, in consultation with the Investment Adviser
- Consulting with the sponsoring employer regarding any proposed amendments to this Statement
- Monitoring compliance of the investment arrangements with this Statement on a continuing basis

## INVESTMENT ADVISER

The Investment Adviser's responsibilities include the following:

- Participating with the Trustees in the review of this Statement of Investment Principles
- Production of performance monitoring reports
- Advising the Trustees, at their request, on the following matters:
  - Through consultation with the Scheme Actuary, how any changes within the Scheme's benefits, membership, and funding position may affect the manner in which the assets should be invested
  - How any significant changes in the Investment Manager's organisation, or that of underlying investment managers, could affect the interests of the Scheme
  - How any changes in the investment environment could present either opportunities or problems for the Scheme
- Undertaking project work, as requested, including:
  - Reviews of asset allocation policy
  - Research into and reviews of investment managers
- Advising on the selection of new managers and/or custodians

## INVESTMENT MANAGERS

As noted in this SIP, JLT IM has been appointed as Investment Manager and will appoint underlying investment managers on behalf of the Trustees.

The responsibilities of JLT IM include the following:

- Providing the Trustees, on a quarterly basis (or as frequently as required), with a statement and valuation of the assets, and any changes to the processes applied to their portfolios
- Having regard to the need for diversification of investments, so far as appropriate for the particular mandate, and to the suitability of investments
- Managing the Scheme's assets in accordance with the mandate set out in the IMA

- Replacing a manager that is significantly downgraded by JLT's Manager Research Team with a suitable alternative
- Appointing a suitable Platform provider

The responsibilities of the underlying investment managers include:

- Informing the Platform provider of any changes in the internal performance objectives and guidelines of their funds
- Having regard to the need for diversification of investments, so far as appropriate for the particular mandate, and to the suitability of investments
- Managing their funds in accordance with their stated mandates

## SCHEME ACTUARY

The Scheme Actuary's responsibilities include the following:

- Liaising with the Investment Adviser regarding the suitability of the Scheme's investment strategy given the financial characteristics of the Scheme
- Assessing the funding position of the Scheme and advising on the appropriate response to any shortfall
- Performing the triennial (or more frequent, as required) valuations and advising on the appropriate contribution levels

## ADMINISTRATOR

The Administrator's responsibilities include the following:

- Ensuring there is sufficient cash available to meet benefit payments as and when they fall due
- Paying benefits and making transfer payments
- Investing contributions not required to meet benefit payments with the Investment Managers according to the Trustees' instructions
